Sähköliittimet

Olemme koonneet PONSSE metsäkoneissa käytetyt liittimet yksiin kansiin. Korkeatasoisilla liitinrungoilla ja johdinkontakteilla estät liitoksien löystymisen ja kontaktipintojen hapettumisen, joista voisi seurata vaikeasti löydettäviä toimintahäiriöitä. Oikeat kontaktit oikeassa liitinrungossa varmistavat vastuksettoman liitoksen vuosiksi eteenpäin.

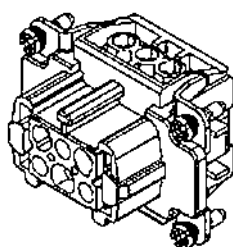

Johdinkontaktien liittämiseksi johtimeen tarvitaan liitintyyppin mukaiset erikoispihdit, joilla johdinliitokset voidaan suorittaa laadukkaasti myös kenttäolosuhteissa. Ponsse tarjoaa erikoispihtejä edulliseen hintaan.
